

Refer Dogs with Demodectic Mange Looking for a New Treatment to Our Clinical Study

We are looking for dogs to enroll in a clinical study focused on demodectic mange as we are investigating a potential therapy for this frustrating condition.

Dogs must be experiencing symptoms of demodectic mange to be considered eligible for the clinical trial. All costs related to the study will be offered at no cost to the owner, including physical exams, the assigned study treatment, labwork. They could also be eligible to receive full coverage for heartworm, fleas, and ticks.

To get in touch or refer a case, feel free to reply to this email or give us a call at 702-243-1885. Visit this info page to learn more about eligibility requirements:
